

# Sound Level Meter ST8080

## Feature

- Auto power off; ( after 10 minutes idle)
- Data hold;
- MAX and MIN;
- Backlit display;
- Sound OVER or UNDER over range indication;
- Low battery indicator;
- Software calibrating.
- 4 digital LCD display

## Specification:

- Frequency Range: 31.5Hz~4kHz
- Measuring Range: 40~130db (40~80dB, 50-90dB, 60-100dB, 80-120dB,90~130db)
- Frequency weighting: A Type
- Resolution: 0.1 dB
- Accuracy:  $\pm 2$ dB (at 94dB, 1KHz)
- Sampling Time : 0.5sec
- Microphone: 1/2 electret condenser microphone
- Time response: Analog bar: 125ms; Digital: 750ms
- Operating temperature: -10~40° C, 14~104° F

## General Information :

- Power : 1.5V( LR03 battery) x 3
- Weight:165g
- Size: 25x 170x 55mm
- Packing: Pouch x 1
- English User Manual x 1
