

Laser Distance Meter ST-100

Application

Laser distance meter is specially designed to measure the distance precisely.

It comes with the function of measuring AREA, VOLUME, ADDITION, SUBTRACTION easily.

The laser distance meter is hand-held and easy to operate.

Features:

- Quick measurement of distance , lengths, widths, heights , areas and volumes
- Wide measuring range up to **100m** with $\pm 2\text{mm}$ (0.079inch) accuracy
- Spirit bubble guarantee better accuracy
- Pythagoras measurement
- For both indoor and outdoor measurement
- Addition and Subtraction function
- Front and rear edge switchable
- **Data Records** and Recall, Hold and Clear Function
- Large clear LCD with backlight
- Outdoor target reflection board
- Max and Min value display
- Single/Continuous measurement
- Multi-line display several readings simultaneously
- selectable meter (m), inch (in) and feet (ft)
- Auto correction and error report
- Buzzer indication:
- Battery status Indication:
- IP54 protection (dust & splash proof):
- Auto / Manual power off function:
- CE, ROHS, FCC certificate

Specification

Range : **0.2- 100m** ; 0.65-328ft

Accuracy : $\pm 2\text{mm}$; $\pm 0.07\text{in}$

Laser type : 635nm, <1mW ,class II

Operation temperature : 0-40°C (32-104°F)

Storage temperature : -10-60°C (14-140°F)

Auto laser off : 20S

Auto power off : 150S

Dust & Splash proof: IP 54

General Information

Power supply: 2*1.5V. AAA

Size: 118*50*25mm

Weight: 140g (We will ship NO batteries)
