

Tissue Embedding Center YD-6LA_(with Cold Plate)

Features:

- Integrated design, fast heat up, high safety factor, long working life, good sealing properties and no wax dripping situation
- The newest high technology and Button Panel Control, new type of heating material
- The machine is made up of embedding system, cooling part .the design can be flexibly selected between embedding machine and cooling part.
- Memory function and Auto Recover feature, Automated control system make it possible for presetting the Embedding system switch on / off with setting time and temperature on schedule
- Special nano technical make it heat up quickly and equably.
- The LCD display can show the temperatures of the paraffin bath, thermostatic bath and paraffin nozzle. So the user can operator it easily.
- Low voltage lighting systems
- Small cold spot in working table .
- Large capacity paraffin bath can contain enough paraffin for use at one time.
- The heating function with multilevel security protection system.
- There are 3 heating hole for forceps in two side of the paraffin nozzle .
- Magnifying glass with lamp is optional accessory
- Collection drawer to collect paraffin from working table

Specification:

- Capacity of the paraffin pan : 6000 ml.
- Temperature range of Paraffin pan: 0 ~99°C
- Temperature range of working table: 0 ~99°C
- Temperature range of left and right warming box: 0 ~99°C
- Freezing range temperature of cold plate: 0 ~ -20°C
- Freezing range temperature of small cold spot in working table : 0 ~ -10°C
- Control mode: manual touch plate or foot switch
- About 120pcs of molds or 140pcs cassettes for each hot reservoir
- Capacity of Cold plate :About 50-60pcs of Tissue mold or cassettes
- Environment temperature: 0°C~ 40°C
- Time control: Switch on and switch off time of the machine is set in 24 hours optionally.
- Nominal voltage: AC110V-220V±10%.
- Rated frequency:50Hz/60Hz
- Power consumption: (dispenser part)10A /1800W, (cold plate part)5A/ 130W
- Dimension: Embedding center (60x52x36.5cm), Cold plate (36x52x36.5cm)
- Gross /Net Weight: 65/35kg(for YD-6D) 110/65kg(for YD-6LA)

Standard Accessory

1 Foot Switch

4 pcs Tissue Molds

1 pc Power Wire

2 pcs Fuse

Optional accessory

Magnifying glass with lamp

Paraffin

Cassettes
